

Cloud Architecture

People Develop Countries... We Develop P.E.O.P.L.E.

Program Admission Arrangements

Who May Apply?

Graduates of:

- Computer Engineering,
- Communications Engineering
- Computer Science

Prerequisites

These topics will be discussed with you in the interviews (Resources applicants can visit or study before interview)

- **Introduction to computer networks**
<https://maharatech.gov.eg/course/view.php?id=37>
- **Vmware Foundation**
<https://maharatech.gov.eg/course/index.php?categoryid=228>
- **ITI values that could be found here:** <https://iti.gov.eg/about-us>

Selection Process

- **Phase 1: IQ and Problem-Solving exam | English exam**
- **Phase 2: Technical Exam**
Computer-based technical exam in the field of your interest
- **Phase 3: Technical Interview**
Those applicants would be discussing with the interviewing panel their pre-work -“Before You Apply”- in a one-to-one interview
- **Phase 4: Interpersonal Skills Interview**
Those how pass phase 3 will be promoted to this interview

Delivery Approach

- 75% face to face Learning| 25 % Online
- Common Hardware
- Common Software

Student deliverables

- Each student must deliver an international certificates based on his track .

Cloud Architecture

Graduates Job Profiles

- **Data Center Engineer**

Responsible for designing, setting up, and managing information/network systems at data centers. Their job description entails monitoring systems operations and administering IT solutions to ensure servers, hard drives, and other data center equipment function efficiently.

- **CLOUD Support Engineer**

is an IT professional that builds and maintains cloud infrastructure. Cloud support engineers can have more specific roles that include cloud architecting (designing cloud solutions for organizations), development (coding for the cloud), and administration (working with cloud networks).

- **Devops Engineer**

is an IT specialist who should have a wide-ranging knowledge of both development and operations, including coding, infrastructure management, system administration, and DevOps toolchains.

Industry/Academy Stakeholders

- **Red Hat Academy**
- **AWS academy**

Targeted Outcome

- Communication Mobile companies, such as; WE, Vodafone, _VOIS, Etisalat Misr, Orange
- Services Providers, such as; Fawry, Aman, PayMob, MaxAB , bluecloud
- Banks, such as; National Bank of Egypt, Bank Misr, Alex Bank

Certifications

- Red hat Certified System Administrator(RHCSA)
- Amazon AWS Cloud Practitioner
- Microsoft Azure Administrator
- Certified Kubernetes Administrator (CKA)

redhat.
CERTIFIED
SYSTEM
ADMINISTRATOR

Cloud Architecture

1506 Hours

Program Content Structure

Fundamental Courses

Operating Systems Fundamentals
Database Fundamentals
MySQL Database
Python Programming
Bash Shell Script
Introduction to Generative AI and prompt engineering

Soft Skills Courses

Communication Essentials for Professionals
High Impact Presentations
Job Seeking Skills
Professional Demeanor (Workshop)

Core Courses

Cisco Network Associate
Cisco Internetworking
Microsoft Windows Infrastructure
Microsoft Windows Active Directory
Red Hat System Administration I
Red Hat System Administration II
Red Hat System Administration III - Ansible
ITIL Foundation
Information Storage and Management
Vmware NSX
Data Center Infrastructure design
VMware vSphere: Install, Configure and Manage
Veeam Backup and Replication
OpenStack Deployment and Operation I
OpenStack Deployment and Operation II
AWS SysOps Administration
Microsoft Azure
Docker and Kubernetes
Version control using Git
DevOps Concept and toolchain
Infrastructure As Code -Terraform
Introduction to cyber security
cloud security
freelancing basics
