

SYSTEM ADMINISTRATION

The System Administration track develops graduates into enterprise infrastructure professionals capable of deploying, managing, securing, and automating modern IT environments. Participants gain extensive hands-on experience with industry-standard technologies while leveraging AI-powered tools to enhance automation, troubleshooting, and operational efficiency, preparing them for high-demand roles in enterprise IT, cloud operations, and infrastructure management.

JOB PROFILES

**System Administrator · Computer Networks Engineer ·
DevOps Engineer · Database Administrator**

TOTAL HOURS

1,236 hrs

Theory + hands-on labs

DELIVERY

Blended

Online & on-site

UNIVERSITY GRADE

Good

Minimum grade required

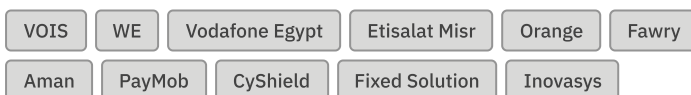

CERTIFICATIONS

4

Industry-certified

Where graduates work

Certifications earned

-  **RHCSA** — Red Hat Certified System Administrator
-  **CKA** — Certified Kubernetes Administrator
-  **AWS-SAA-C03** — AWS Certified Solutions Architect – Associate
-  **HCCDA** — Huawei Certified Cloud Developer Associate

Selection process

- 01 IQ & English Exam**
 Online exam covering problem-solving aptitude and English proficiency.
- 02 Technical Exam**
 Computer-based assessment covering the program's core technical fundamentals.
- 03 Technical Interview**
 Interview with the technical committee.
- 04 Interpersonal Interview**
 Candidates who pass the technical interview are invited to this final stage.

Who may apply

Open to graduates in Computer Engineering, Communications Engineering, and Computer Science with a minimum grade of Good or higher.

Program content – 1,236 hours

CATEGORY	HOURS	SHARE	KEY COURSES
● Fundamental Courses	99 hrs	8%	Operating Systems Fundamentals, Database Fundamentals, Python Programming, Bash Shell Script, Client-Side Technologies, Cloud Computing and Virtualization Foundations, Introduction to Generative AI and prompt engineering
● Core Courses	780 hrs	63%	Cisco Network Associate, Cisco Internetworking, Microsoft Windows Infrastructure, Microsoft Windows Active Directory, Red Hat System Administration I, Red Hat System Administration II, Red Hat System Administration III (Ansible), Web Server Administration, Red Hat High Availability Clustering, OpenShift, Advanced Routing design and Implementation, Advanced switching design and Implementation, Introduction to cyber security, Object Oriented Programming using Python, VMware vSphere: Install, Configure and Manage, Docker and Kubernetes, Version control using Git, DevOps Concept and toolchain, Infrastructure as Code: Terraform, AWS SysOps Administration, Introduction to Oracle SQL and PL/SQL, Oracle DBA I, Oracle DBA II, AI for System Administrators, Enterprise Backup with Veeam
● Soft Skills	57 hrs	5%	Communication Essentials for Professionals, High Impact Presentations, Job Seeking Skills, Professional Demeanor
● Graduation Project	300 hrs	24%	

Hands-on labs are conducted in-person. Online components cover theory and self-study modules on MaharaTech.

Student Deliverable

Every graduate must obtain an international certification relevant to their specialisation — RHCSA, CKA, AWS-SAA-C03 or HCCDA — confirming professional readiness for the field.
