

CLOUD ARCHITECTURE

The Cloud Architecture Track prepares students to design, implement, and manage scalable cloud solutions by covering cloud computing, infrastructure as code, virtualization, and services across major platforms such as AWS and Azure. Through practical labs and projects, students gain hands-on experience in deploying secure, efficient cloud environments, automating infrastructure, and managing multi-cloud services, while also using AI-assisted tools to enhance monitoring and optimization. Graduates are equipped for roles such as cloud engineers, Data Center Engineers, and DevOps Engineers, ready to build modern systems that balance performance, security, and innovation.

JOB PROFILES

**Cloud Administrator · Cloud Support Engineer ·
Data Center Engineer · DevOps Engineer**

TOTAL HOURS

1,155^{hrs}

Theory + hands-on labs

DELIVERY

Blended

Online & on-site

UNIVERSITY GRADE

Good

Minimum grade required

CERTIFICATIONS

4

Where graduates work

Certifications earned

- RHCSA** — Red Hat Certified System Administrator
- AWS-SAA-C03** — AWS Certified Solutions Architect – Associate
- CKA** — Certified Kubernetes Administrator
- NCP-MCI** — Nutanix Certified Professional - Multicloud Infrastructure

Selection process

01 IQ & English Exam

- Online exam covering problem-solving aptitude and English proficiency.

02 Technical Exam

- Computer-based assessment covering the program's core technical fundamentals.

03 Technical Interview

- Interview with the technical committee.

04 Interpersonal Interview

- Candidates who pass the technical interview are invited to this final stage.

Who may apply

Open to graduates in Computer Engineering, Communications Engineering, and Computer Science with a minimum grade of Good or higher.

Program content – 1,155 hours

CATEGORY	HOURS	SHARE	KEY COURSES
● Fundamental Courses	111 hrs	10%	Operating Systems Fundamentals, Database Fundamentals, MySQL Database, Python Programming, Bash Shell Script, Introduction to Generative AI and prompt engineering
● Core Courses	687 hrs	59%	Cisco Network Associate, Cisco Internetworking, Microsoft Windows Infrastructure, Microsoft Windows Active Directory, Red Hat System Administration I, Red Hat System Administration II, Information Storage and Management, Data Center Infrastructure design, Microsoft Azure, VMware vSphere: Install, Configure and Manage, VMware NSX, OpenStack Deployment and Operation, Google cloud platform (GCP), ansible, Veeam Backup and Replication, Docker & kubernetes Fundamentals, Open Shift, Nutanix, AWS SysOps Administration, Infrastructure As a Code (IaaS), Advanced Devops, DevSecOps, cloud security, Ai for Cloud Engineers, freelancing basics
● Soft Skills	57 hrs	5%	Communication Essentials for Professionals, High Impact Presentations, Job Seeking Skills, Professional Demeanor
● Graduation Project	300 hrs	26%	

Hands-on labs are conducted in-person. Online components cover theory and self-study modules on MaharaTech.

Student Deliverable

Every graduate must obtain an international certification relevant to their specialisation – RHCSA, AWS-SAA-C03, or CKA,NCP-MCI – confirming professional readiness for the field.
